#### PROFESSIONAL EXPERIENCE

#### Student - Software Engineering Bootcamp

**HYPERION DEV** March 2020 - Present

I am currently studying through Hyperion Dev. as an aspiring software engineer. So far I have amassed a wealth of knowledge from this course focusing on teaching the fundamentals of thinking like a software engineer. Changing your entire mindset can be rather difficult and I have found this course to be a very welcome, stimulating and challenging experience. Skills covered so far: Java, Python, Git, OOP

#### Senior Key Accounts Consultant

CLOUDSTREAM GLOBAL (TECHSTREAM GROUP)

Sept 2019 - Feb 2020

Senior Key Accounts Consultant at CSG, focused on recruiting top tech talent from around the globe and placing them in to the MENA market.

Working in Agency Recruitment, working mainly with Software Engineers and Data Scientists from across the globe and placing them into sought after positions in the United Arab Emirates.

The Skills I have developed in this position is vast, especially when it comes to communication and negotiation.

I was responsible for keeping in contact with my clients, and ensuring that all their hiring needs are met in an efficient and effective manner. I was also responsible for finding and sometimes relocating of top tier candidates from all over the world. Being by their side for every

# Internal Talent Specialist

**GLOBAL KINETIC** 

Aug 2018 - Sept 2019

I worked for this incredible Software Engineering company as an internal recruiter.

I gained a lot of insight into what it takes in order to develop great software. I loved every minute of working at GK.

I sourced, screened and interviewed technical candidates for GK.

I also had some other general HR function such as organizing events (Quiz Night, LAN's, Halloween etc.).

#### Talent Associate

**CLOUDSTREAM GLOBAL** 

Jan 2017 - July 2018

Working as a Talent Associate for CSG, focused on recruiting top tech talent from around the globe and placing them in to the MENA market.

I had to source candidates and screen them for relevant vacancies, as well as do Business Development in order to broaden the Team's Client Base. I worked mainly with Software Engineers and Data Scientists during this time but did touch on other technical roles.
